Close Proximity To Frontal
Boundary Will Trigger Storms
Across Southeast Michigan**

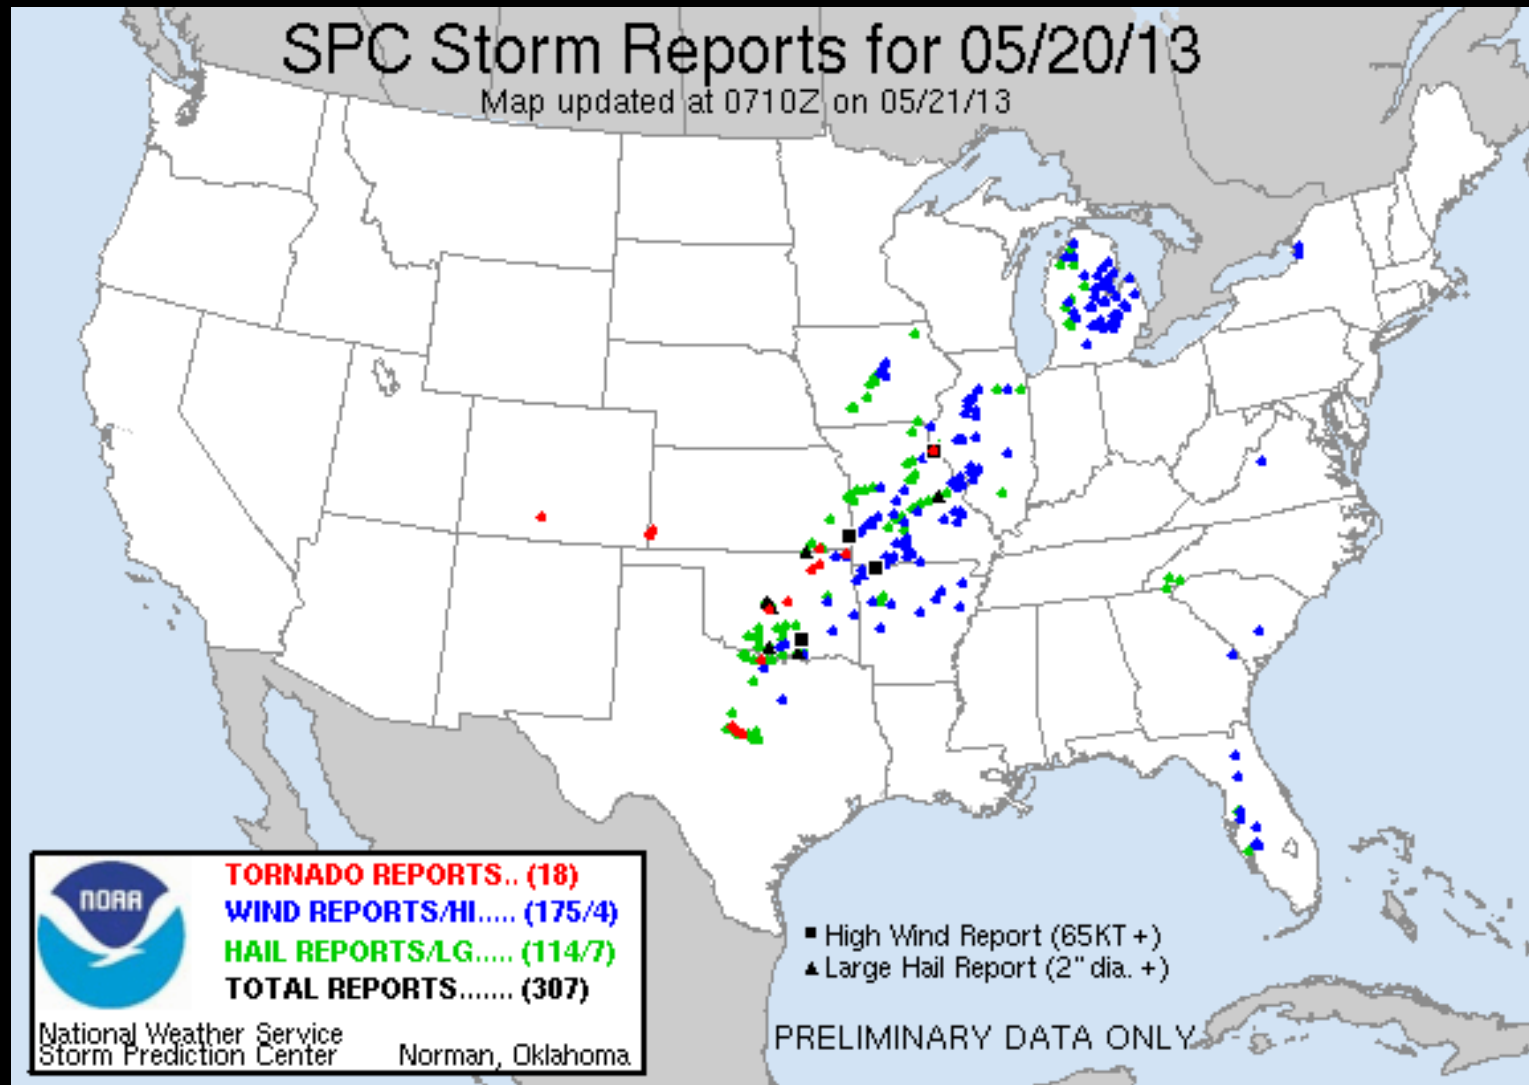

Weather Map Wednesday Highlights

**Lingering Chance of Severe
Weather across the southeast
as Low exits the region**

Storm System Has History Producing Severe Weather

Hazards Summary Review

This Afternoon Through Wednesday

- **Multiple Rounds Of Showers And Thunderstorms Through Wednesday, Creating Forecast Timing Difficulties.**
- **Isolated Tornado Threat, Damaging Winds And Large Hail Possible This Afternoon Through This Evening**
 - **Storms this morning may have gusty winds, however severe threat will be minimal**
 - **Additional Thunderstorms are expected on Wednesday, with the best threat for severe weather across the far southeast in the warm sector**
- **Thunderstorms Will Produce Locally Heavy Rainfall – But Preceding Dry Stretch Of Weather Will Help Mitigate Significant Flood Threat.**
